

## Position

Nomadic Labs is looking for a **Community Manager** to join our Communication team, based in Paris, to grow our online brand awareness and our social media platforms while building a strong community around Nomadic Labs.

## About Nomadic Labs

Nomadic Labs is a research and development company for distributed, decentralized and formally verified software, based in Paris. We help build Tezos, the self-amendable blockchain, using tools and techniques for the production of safe and high-quality code. We also carry out original research with some of the strongest research institutes in Europe, such as Inria in France and the IMDEA Software Institute in Spain. Finally, our Adoption and Support department helps promote the Tezos blockchain ecosystem.

We are committed to inclusion, working with service providers such as integrators and tokenization platforms to efficiently respond to requests from companies wishing to develop dApps on the Tezos platform. We have a team of more than 50 people, and we are proud of how we mix industrial and academic skills, and of our collegiate and collaborative working environment.

Nomadic Labs is an active member of the Tezos ecosystem, and we are happy to be part of a robust, diverse and flourishing community that includes actors from all around the world.

## Responsibilities

Under the responsibility of the Communication Manager, the Community Manager will be in charge of :

- Plan and publish content (providing engaging text, image and video) for social media accounts (Twitter, LinkedIn, Reddit, Youtube, emails, and more)
- Maintaining the content calendar to ensure social media content is regular, brand appropriate, relevant and engaging
- Contribute to creative ideas as part of wider communication strategy
- Engage with followers to build relationships with the community and encourage engagement across accounts and social channels
- Report on performance and growth of all social channels on weekly and monthly basis
- Stay informed on trends in digital technology and the crypto space

## Desired Skills & Experience

- Master's degree in Marketing Communications
- 2+ years of work experience in a social media manager / community manager role
- Experience working on Social Media platforms, including Twitter, LinkedIn, Reddit, Telegram and more
- Good knowledge of community building
- Excellent writing and editorial skills in English, attention to detail & presentation skills
- Be able to work flexible and stretched hours to interact with the community as frequently as possible.
- Comfortable with digital analytics and management tools like Google Analytics, Sprout, Tweetdeck, and others.
- Fluency in French and English
- Bonus : Strong understanding of cryptocurrency/blockchain related terminologies and trends and an interest for crypto cultures
